Direct Deposit— The Best Choice

Direct Deposit is a Government service that enables you to have your Federal payments sent electronically to an account at your financial institution. Every year, the Government sends over 400 million electronic payments to individuals like you. For more than 20 years, Direct Deposit has given Federal payment recipients exactly what they deserve: safe, reliable, and convenient Government payments. Currently over 30 million people receive Federal payments by Direct Deposit. No doubt, you know someone who receives payments by Direct Deposit.

Why should you choose Direct Deposit?

It's Safe

You can be away from home secure in the knowledge that your check is not sitting, unprotected, in your mailbox.

You won't have to worry about your check being lost or stolen.

Relax—your money is in your account.

It's Secure

Only you can access your funds in your account. Nobody, including the one paying you, can get balances or other information about your account without your permission.

It's Reliable

Your payment arrives on time without delays caused by mail or bad weather.

It's Convenient

Your payment is sent straight to your account on the payment date.

You won't need to make special trips to the bank to wait in line to cash or deposit your check.

You have access to your payment at the opening of business on the payment date, whether you write a check or use an automated teller machine (ATM).

It's Easy

To apply for Direct Deposit, all you need is an account at a financial institution. Simply visit a bank, savings bank, savings and loan, or credit union to enroll. Or call your Federal program agency for more information.
